

ViaVienté

THE DIFFERENCE!

It seems that almost every company on the market claims to be the #1 product. Product comparisons, however, illuminate 7 clear reasons that separate ViaVienté from all other products on the market. These reasons create "The Difference" between ViaVienté's 17 years of formulation and all the startup juice companies. Rather than give you an opinion that our product tastes better, or helps more people, we give you only the FACTS. These facts are clear, verifiable and indisputable.

Individually these seven facts put ViaVienté in a class of its own . . .

SUPERIOR ABSORPTION AND UTILIZATION

ViaVienté's chelated minerals and living enzymes yield increased bioavailability over pasteurized and synthetic products and an industry leading 95% absorption rate. University studies on pills and other products show an alarming bodily uptake as low as 10%! ViaVienté's superior absorption rate means your body can actually absorb what you are consuming rather than waste it – delivering increased value and better results.

NOT PASTEURIZED

ViaVienté is NOT pasteurized, but rather Aseptically Sterilized to kill all contaminants while maintaining the precise chemistry and living enzymes found in natural foods and so important to digestion, assimilation and metabolism.

QUALITY ASSURANCE

We were the first and are currently the only product of all the major competitors to have received the FDA approved Brunswick Laboratory's seal for antioxidant quality assurance. This means you are guaranteed to get what you pay for and you are getting 2 to 5 times the antioxidants of our nearest competitor.

LIVING WHOLE FOOD

ViaVienté has graduated to the next FDA approved level from dietary supplement to Living Whole Food. Only whole natural foods are given this distinction because it means that the food is safe for consumption by anyone. ViaVienté has zero medication contraindications and is approved for children of all ages and even pregnant and lactating women . . . if you can eat food, you can enjoy the health benefits of ViaVienté.

NO ADDED SUGARS OR FLAVORS

We believe an all-natural product should remain just as nature intended so we make our product without the addition of sugars or flavors and let the wholesome flavor and nutrition of the fruit purees stand on their own.

NO SODIUM BENZOATE OR OTHER PRESERVATIVES

A quick internet search shows that sodium benzoate and other preservatives have gotten a lot of negative press as of late so we have once again chosen to keep our product exactly as nature intended: PRESERVATIVE FREE!

WE USE THE WHOLE FRUIT

Science has proven that the majority of vitamins, minerals and antioxidants are found in the skins and seeds of fruit and vegetables and we maintain this concentration of nutrition by using the whole fruit. The nutritious skins, seeds and pulp are all a part of our product: NO CONCENTRATES. This gives you the complete nutrition of each carefully chosen ingredient.

Collectively these seven facts make ViaVienté unique in the health and wellness industry.

Quality stands alone and speaks for itself; enjoy drinking ViaVienté because facts cannot be argued and there can be only ONE true industry leader: ViaVienté.
